MVW

Chlorination System

BENEFITS

- Removes bacteria such as E-coli, coliforms, iron & sulfur bacteria, etc.
- Removes high levels of iron
- Removes moderate to high levels of sulfur gas
- Removes non-specific organic odors

FEATURES

- Fiberglass tank resists corrosion
- 120 gallon capacity ensures 30 minute contact time for a 99.9999% removal
- Patented dip tube ensures thorough cross flow mixing
- Residual "test port" on outlet line
- Granular activated carbon removes residual chlorine from water
- Filter automatically flushes and resets based upon preset schedule
- Diaphragm and peristaltic models available
- Opaque see-through design with easy to read gallon markers
- Treated water refill line plumbed-in for ease of fill
- Uses normal household bleach, peroxide, or pool shock
