

MAHONING VALLEY WATER

According to the Center for Disease Control and Prevention, reverse osmosis filtration systems can effectively remove lead making it safe for consumption.

Removes chlorine and chlorination disinfection byproducts such as trihalomethanes (THMs), which could potentially contribute to low birth weight, preterm birth, birth defects, fetal deaths, and other adverse pregnancy problems.

Have peace of mind knowing that you're providing your family with the best quality water right at home for drinking, cooking, ice, baby-formula, & pets.

Extended Warranties & Service Contracts Available

MVW

Reverse Osmosis

BENEFITS

- Improves taste, odor and appearance of your water.
- Minimizes your exposure to contaminants and may potentially reduce your allergy symptoms.
- Significantly reduces unwanted substances such as carcinogens, heavy metal ions such as cadmium, chromium, lead and mercury; chlorine, cryptosporidium, salts, turbidity, nitrate, VOC's, organic compounds, dissolved solids, tastes and odors leaving great tasting water.
- Filters out pharmaceutical traces from water, the Federal Government has not established safe levels yet.

FEATURES

- Chrome-lead free faucet
- Quick disconnect cartridges
- Optimal levels of filtration
- 4 gallon storage tank
- Multiple upgrades available
- Removes the following: Aluminum, Arsenic, Asbestos, Barium, Cadmium, Calcium, Chloride, Chromium, Copper, Cyanide, Fluoride, Iron, Lead, Magnesium, Manganese, Mercury, Nickel, Nitrates, Potassium, Selenium, Silver, Sodium, Sulfate, TDS, Zinc, Benzene, Chlorine, DCB's, Endrin, Ethyl Benzene, Lindane, Methoxychlor, PCB's, Toxaphene, TCE's THM's, 2-4-D
